- Cut two bodies and one each of the other pieces unless you are making a double-sided ornament. In that case, cut two of everything.
- Begin by stitching the white face onto the body with a running stitch using white thread.
- Snip a tiny triangle of orange felt, tack it in place on the face with a trio of seed beads for the eye or a French knot.
- With a stem stitch in black, create the marking that runs under the eye.
- Using a satin stitch with orange thread, create the oval marking on the face.
- Tack the beak in place using a stem stitch in black.
- Stitch the belly into place using a running stitch with white thread.
- Stitch front and back together with a blanket stitch pausing to stuff the body with fiberfill before completing.
