

# Downeast Thunder Farm Manatee

Copyright 2019 Downeast Thunder Farm

- Use two strands of dark gray or black floss to add all of the decorative stitches.
- Sew the running stitches on the body.
- On the snout, create the dots with French knots.
- Cut a small oval of dark gray felt for the eye and finish off with a black seed bead.
- Position the flipper and tack with the running stitches as outlined. Create a mirror image of the back, but move the flipper forward a bit.
- Add the decorative stitches to the body back and tack the tail. Pin the two body pieces together.
- Using two strands of matching color gray floss, sew the two body pieces together with a blanket stitch. Before you finish the blanket stitch, pause to lightly with fiberfill.

Have fun!
