

Downeast Thunder Farm Buoy Ornament

Copyright 2021 Downeast Thunder Farm

This buoy is an easy ornament that you can design in many ways - I've provided a few examples. I used a small dowel for the stick but have provided a felt version if you opt for that.

Cut two of each piece. Position the stripes on the buoy in your choice of design. The stripe will extend over the edges of the buoy piece. Tack the top and bottom edges of the stripe with a matching color floss using a blanket stitch or running stitch. Trim off the excess stripe felt that extends over the edge of the buoy.

If using the felt stick, sew the two sides together with a blanket stitch with matching color floss.

Position the stick in the middle and sew the buoy side. Sew the sides together with a blanket stitch using floss that matches the buoy color. Pause about 1½" from finishing the blanket stitch and lightly stuff with fiberfill. Finish sewing and tie-off.

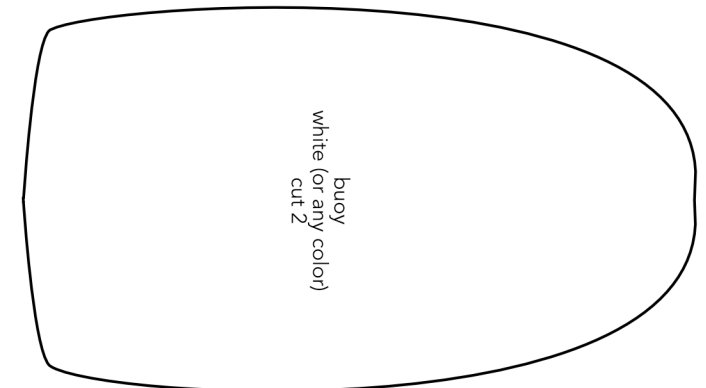

If using a dowel stick, you'll need to add fiberfill on both sides of the stick.

Have fun!
