

Downeast Thunder Farm Border Terrier

Copyright 2021 Downeast Thunder Farm

This dog has a variety of colorations, so I've provided some variations for you to use. Mix the colors up as suits your pup.

Start by tacking on the collar or adding the running stitches that define the neck using brown floss.

Tack one or both chest pieces using matching colored floss.

Position one or both beards and tack with matching colored floss. If desired, add the chin. Position the nose and tack with black floss. Add the running stitches to create the mouth.

Position the ear tab to the back of the body front and tack. Fold over and tack to the face.

Position the eyes and tack with brown floss and finish off with a black or clear seed bead. With brown floss, add the eyebrow stitches.

Using brown floss, add the running stitches that define the legs. Use black floss to create the nails.

On the body back, tack the tail.

Sew the two bodies together with a brown blanket stitch. Pause about 1½" from finishing the blanket stitch and lightly stuff with fiberfill. Finish sewing and tie-off.

Have fun!
